Test Generic Comparison Plot Report

Peter von Rohr

2021-08-18

Disclaimer

Analogous plots from two different directories are shown side-by-side. Analogy between pairs of plots is determined by the respective name of the plot files. The following table shows the directories from where the plots were taken from.

Plot	Directory
left-hand-side	/Library/Frameworks/R.framework/Versions/4.0/Resources/library/qgert/extdata/prevpath
right-hand-side	/Library/Frameworks/R.framework/Versions/4.0/Resources/library/qgert/extdata/curpath

Comparison Plots

The following plots show comparisons between four subsequent evaluations plus two arbitrarily chosen plots taken from templates of RMarkdown documents.
